Create a university web site containing 6 html pages (student, department, contact, home, placement, alumni). Use Frames, Hyperlinks to link one page to other. Embed images and videos.

CODE FOR UNIVERSITY WEB PAGE:

```
<!DOCTYPE HTML>
<html>
<head>
<meta name="viewport" content="width=device-width, initial-scale=1.0">

<p>NAME : SUDANA SHASHI KIRAN </p><br>

```

This creates the frames of 4 as mentioned in below output:

The screenshot shows a web browser window displaying a university website. The title bar reads "SHASHI KIRAN UNIVERSITY". The main content area features a large image of a modern university campus with white buildings and green landscaping. Overlaid on the image is the text "Welcome to our webpage". To the left of the main content is a sidebar containing a logo and a list of links: Home, Student, Department, Placement, Alumni, and Contact.

An average of 10 students every year get an opportunity to get internships in USA, UK, Ireland, Japan, China, Israel, Taiwan, UAE, Kenya, Germany, Nigeria and Italy. These internship programs help the students to earn a stipend, in addition to hands-on experience and practical application of everything they have learned. While VIT ensures that all its students obtain placement in leading MNCs, it also makes sure that they get internships and have valuable work experience.</p>
